Company Profile

- Established in 2014 as a Pte Ltd construction Company to serve mainly the construction industry in Oil and gas and process sector.
- Our Registered office is at 21, Bukit Batok Crescent, #15-74, Wcega Tower, 658065
- We are a small construction Company carrying out Structural steel fabrication and installation, piping fabrication and installation and Fire fighting piping and equipment fabrication and installation for projects in oil and gas and pharma sectors in Jurong island and Tuas.
- We utilize the experience of our employees and Management who have worked with large corporations in oil and Gas and Chemical sector and understand their Safety, Quality and workmanship requirements.
- Our aim is to develop ourselves into a small EPC Company who can work on small packages of large EPC Contracts and provide cost effective and trouble free solution to large EPC Companies reducing their risks.

Core Competencies

- **Our ability to mobilize Quality workforce at short notice**
- **Our ability to carry out all types of mechanical works- Piping, Mechanical Equpt., Tankage, Strl. Steel, Fire fighting etc.**
- **Our ability to carry out Project Management Services**
- **Our ability to carry out Engineering works**

Company Capabilities / Project Works

We carry out small and medium sized mechanical projects for the onshore oil & gas, chemical and pharmaceutical industries. Scope of works on our typical projects are

- Installation, alignment and grouting of static and rotary mechanical equipment
- Supply, fabrication and installation of process and utility piping.
- Supply, fabrication and installation of fire fighting system including sprinkler piping, fire hydrants, hose reels, water and foam monitors, dry chemical skids and dry chemical piping, CO2 fire extinguishing system, FM 200 clean agent fire extinguishing system, IG 541/Inergen fire extinguishing system for substations, Tank cooling sprinklers and foam lines etc. for oil/chemical process plants and storage terminals.
- Supply, fabrication and installation of structural steel works – like pipe rack, production buildings, warehouses, technology structures
- Supply, fabrication and installation of roof and wall purlins, canopies, roofing, cladding, facia, walkways etc
- Structural steel works for A&A of steel structure buildings like production building, warehouses etc in process/chemicals/pharmaceutical plants
- Strengthening of existing pipe racks/production building structure for installation of new piping/process equipment
- Providing pre-commissioning and commissioning supports for pre-commissioning and commissioning of process plants .

Company Capabilities / Other Works

Procurement Services

- Procurement of materials
- Expediting materials for orders procured by client
- Offsite machining services
- Offsite bending and rolling services

Construction Services

- Rental of Blind flanges, pressure gauges, hydrotesting pumps
- Hydraulic Bolt tensioning and torque tightening services
- Rental of torque wrenches, torque multipliers etc.
- On site Flange facing
- Wrapping and Coating and Holiday detection test
- Epoxy grouting for pumps and compressors
- Fireproofing and insulation
- Tank Fabrication, installation and refurbishment

Company Accreditations

Registration Certificate

This is to certify that the Management Systems of

HARVEEN ENTERPRISE PTE LTD

Has been assessed, against the scope of work defined on the accompanying Registration Schedule as conforming to the requirements of

ISO 9001:2015

Certificate No : AJA(S)17/Q2013 Date of Original Registration : 23rd October 2017

Expiry Date : 22nd October 2020 Date of Re-Registration : N/A

Timothy Deacon
Managing Director
AJA Registrars Pte Ltd

This certificate is issued in respect of the Issuance & scope of registration detailed in the Accredited Registration Schedule. This certificate is the property and issued by AJA Registrars Pte Ltd 69 Paya Lebar Road #11-20 Paya Lebar Square Singapore 409517 and must be returned on request. A member of the AJA Group of Companies

Registration Certificate

This is to certify that
The Occupational Safety and Health Management System of

HARVEEN ENTERPRISE PTE LTD

Located at

21 Bukit Batok Crescent
#15-74 WCEGA Tower
Singapore 658065

Has been assessed against the scope of work defined for the activities of

Fabrication and Installation of
Structural Steel Works and Piping Works

As Conforming to the requirements of

**SS 506 Part 1:2009/
BS OHSAS 18001:2007**

Certificate No: AJA(S)17/S2012 Date of Original Registration: 23rd October 2017

Expiry Date: 22nd October 2020 Date of Re-Registration: N/A

Next Re-Audit Due Date: 22nd August 2020

Certificate No. E27102

Company Accreditations

Connect • Engage • Grow

ASSOCIATION OF PROCESS INDUSTRY

(Formally Known As Process Industry Contractors' Association Singapore)
(Registered with the Registry of Societies since 1997)

THIS CERTIFIES THAT

HARVEEN ENTERPRISE PTE. LTD.

has fulfilled the requirements set out by the Constitution
and was admitted as a Corporate Member
by the Membership and General Affairs Committee

President

Date of Admission: **1 January 2018**

Chairman
Membership and General Affairs Committee

Membership No: **C0918/2018**

UEN S97SS0046G

THE SINGAPORE WELDING SOCIETY

This is to certify that

HARVEEN ENTERPRISE PTE LTD- CWS2698

*having met the requirements of the SWS Constitution,
Bye-Laws for memberships, has been elected as*

Corporate Member

of the Society.

Our clients/Employers/Owners

Our Direct Clients

- Techgems Engineering and Construction Pte Ltd.
- JEL Maintenance Pte Ltd.
- Hai Leck Engineering & Construction Pte Ltd.
- KPW Singapore Pte Ltd
- Penguin Engineering & Construction Pte Ltd
- Deluge Fire Protection S.E.A. Pte Ltd.
- LKW Mechanical Engineering Pte Ltd
- Chubb Singapore Pte Ltd

Owners / Principals on whose projects we have worked

- Huntsman Singapore Pte Ltd.
- Celanese Singapore Pte Ltd.
- GSK
- Shell Eastern Pte Ltd
- Exxon Mobil Asia Pacific Pte Ltd
- Singapore LNG Corporation
- Afton Chemicals Asia Pacific Pte Ltd
- Evonik Methionine SEA Pte Ltd
- Jacobs Engineering Singapore Pte Ltd
- Amec Foster Wheeler Asia Pacific Pte Ltd

Company Capabilities / Area of Specialization

➤ For Mechanical & Piping our services include-

- Installation, alignment and grouting of static and Rotating Mechanical equipment
- Preparation of design and Fabrication /Shop Drawings
- Fabrication and installation of Medium Capacity Atmospheric storage tanks
- Procurement of Steel Plates, pipes and fittings, valves and specialty items, studs and nuts, Gaskets and pipe supports.
- Shop fabrication of pipe spools and Pipe supports.
- Surface preparation and painting
- Installation of pipe spools at site
- Supporting of pipe spools.
- QA/QC and NDE
- Test pack preparation, arranging line walk and punch list attending
- Hydrotest, flushing, draining and drying
- Handover of subsystems

Company Capabilities / Area of Specialization

➤ For Fire fighting systems our services include-

- Installation of Fire fighting piping
- Supply, fabrication and installation of 2 way and 4 way fire hydrants.
- Installation of Fire hydrants and monitors.
- Installation of Dry Chemical skids.
- Installation of Deluge valve Manifolds and sprinkler piping.
- Fabricating Foam and dry chemical skids and Assembling the individual components onto it, and field installation at site.
- Installation of CO2 fire suppression system including installation of vendor equipment, supply and fabrication of piping, testing and commissioning.
- Installation of Inergen fire suppression system including installation of vendor equipment, supply and fabrication of piping, testing and commissioning.
- Installation of Hose reels and fabrication and installation of hose reel piping.
- Installation of other equipment for fire fighting system like dry powder type fire extinguishers, CO2 fire extinguishers, Foam tank, foam proportioner, foam expansion system etc.

Company Capabilities / Area of Specialization

➤ For Structural steel our services include-

- Design and Engineering including PE check and BCA submission
- Shop drawing preparation
- Material procurement of steel, bolts and nuts , gratings etc
- Shop Fabrication,
- Hot dip galvanizing/painting
- Installation at site, alignment and grouting,
- Supply and installation of handrails, chequered plates, gratings etc,
- Dismantling of existing structural steel members
- Structural steel strengthening and field welding works at site
- Field touch up and painting.

Company Capabilities / Area of Specialization

➤ **We also provide other services which include:**

- Flange face machining services.
- Flange joint management including torqueing using hydraulic torque tightener and bolt tensioner.
- Tie-ins of all kinds viz- isolate , cut and weld tie-ins, bolted tie-ins, Welding of Hot-tap & stopple fittings and providing support services to HOT Tap specialist contractor during Hot Taps
- Underground Piping
- Wrapping and Coating including Holiday Detection test.
- Providing roofing and cladding for buildings
- Disinvestment of equipment, piping , steel structure and foundation
- Carrying out Lifting of modules, process equipment, steel structure etc. for weights upto 120 MT.

MECHANICAL & PIPING WORKS PROJECTS

- Modification of manhole of the Butene sphere tank , installation of new pump, suction and discharge piping and other piping in C4 area of SCP and piping for new marine marine loading arm at PAC Berth for B 299 – B1 Import Export flexibility project for ExxonMobil Chemicals in Jurong island.
- Supply, fabrication and installation of carbon steel lining, sulphur pit nozzles, Steam coils, baffles and troughs including fixing of G studs for refractory for revamp of Sulphur pit in SRU Plant in Exxon Mobil PAC refinery.
- Fabrication and installation of piping for 4” new HP Steam line and miscellaneous other lines in Vis-Breaker area of Exxon Mobil Jurong Refinery in Pioneer Road.
- Fabrication and installation of piping , equipment, pipe supports , valves and tie-ins including testing for Echolab Tank Farm Expansion Project in Jurong island.
- Fabrication and installation of piping, disinvestment of piping and metering equipment and tie-ins for M078 Project for Berth 1 of Exxon Mobil Refinery in Shipyard Road
- Supply, fabrication, painting and installation of 3 nos of 120 Cum capacity Carbon steel tanks and 1 No. of 120 Cum capacity Stainless steel Tank for Echolab Tank Farm Expansion Project in Jurong island

MECHANICAL & PIPING WORKS PROJECTS Contd..

- Fabrication & installation of structural steel, piping, installation of Hot Tap & Stopple fittings, supporting T.D. Williamsons for carrying out 36" and 24" Hot-Tapping and Stopple , carrying out piping Tie-ins , disinvestment of pipe bridge, structure and foundations for Condy Pipeline Diversion Project.
- Rerouting of Fire water line, Nitrogen line, Potable water line , Newater line and other miscellaneous mechanical works for Jurong Multipurpose Building Project at Exxon Mobil Pioneer Road Refinery.
- Carry out miscellaneous left over works involving piping installation, pipe supports installation, pump alignment, punch list attending , piping hydrotest, and other related works on time and material basis for SAR2-IPP Project in ExxonMobil Pac refinery.
- Installation of Additional Blender vessel, vertical agitator, related structural steel modification, process and utility piping, sprinkler system modification and roofing modification for Celanese Additional Blender Project
- Installation of New chiller package skid and Glycol pumps, allied piping, steel structure, roofing , HVAC & Fire fighting system for BASF New Chiller project.
- .

FIRE FIGHTING SYSTEM PROJECTS

- Installation of Underground main Fire water Ring and installation of Fire hydrants and monitors for Celanese SEA VAE Project
- Supply , Fabrication and installation of Fire water Hose reel and hydrants and monitors and related Above Ground piping for Shell Marina LOBP and GMP Project.
- Supply, fabrication and installation of Deluge valves and sprinkler systems, Inergen system, CO2 system, FM 200 Clean agent Fire suppression system, Dry chemical skids, dry chemical piping, Fire extinguishers, hose reel etc. for transformer yards, LNG Storage Tank, BOG Compressor Building, LNG Booster Pump house and Residual Gas Blower for Deluge Fire Protection S.E.A. Pte Ltd and Samsung C&T at SLNG Phase 3 Project.
- Rerouting of Stainless steel fire water piping and installation of one hose reel with cabinet for Exxon Mobil BREM Mitigation Project
- Modification of existing sprinkler piping for additional blender in Celanese Additional Blender Project.

Structural Steel Work Projects

- Structural steel works including roofing and cladding for MCC Building. Cooling tower basis and platforms, Waste water treatment and Fire water retention pit and Warehouse building for Huntsman Apex project.
- Installation of purlins, roofing, wall cladding and fascia for 3 storey Production building and renovation of existing warehouse, handrails for Waste water sump for Celanese SEA VAE Project.
- Structural steel works for addition and alteration of GSK's E-AMOX Dry End Facilities Project.
- Structural steel strengthening works for pipe rack structure SLNG Phase 3 project.
- Structural steel works for Exxon Mobil's BREM Mitigation Project.
- Structural steel works for Exxon Mobil's CWT warehouse follow-up project
- Miscellaneous structural Steel works for Shell Marina LOBP Project including –
 - Supply , fabrication and installation of Link Walkway
 - Strengthening of structural steel inside GMP Building
 - Supply, fabrication and installation steel structure for extension of loading Bay.
 - Supply, fabrication and installation of jack roof for temporary warehouse building.
